Lensing Premium
Entry Doors combine
beauty and durability.

Meet the maintenance-free frame system: **FusionFrame® from Endura Products**

FusionFrame takes all the benefits of all-composite and all-wood frames and combines them to make one door installation system known for its strength and performance.

Maintenance-Free Performance

- ✔ Composite base and casing provide protection from rot and insects.
- ✔ Engineered wood core for structural rigidity to resist sagging and bowing, even in extreme temperatures.

Flawless Finish

- ✔ Removable jamb and brickmould covers hide fasteners for a seamless finish.
- ✔ Available in prefinished paintable white or a stainable textured finish.
- ✔ "Floating" brickmould allows you to adjust freely to cover out-of-plumb openings.

Easy Installation

- ✔ Built-in bubble level helps you get it right the first time.
- ✔ A full portfolio of jamb, mull and casing options provides full versatility.
- ✔ Rippable jamb widths let you customize and make adjustments easily.

Warrantied for Life.

- ✔ Comes with limited lifetime warranty covering the product and installation labor.
- ✔ Warranty is fully transferable.

White and textured FusionFrame parts are in stock.

Paintable White Finish

The prefinished white provides a smooth surface that's ready to be installed and painted.

Stainable Textured Finish

This textured finish is ready for any oil-based stain for a natural wood look.

Installation Instructions

FusionFrame's innovative design makes for an easier, better installation. Scan the QR code to watch how easy it is to install FusionFrame.

The rot-proof core of FusionFrame®: **FrameSaver® Engineered Wood Frame**

Kiss frame rot goodbye with FrameSaver®, the original rot-proof wood door frame solution. This engineered wood frame core is backed by a fully-transferable lifetime limited warranty - though you won't need it. Nothing protects your Lensing Premium Entry Door quite like the builder-trusted FrameSaver®.

6 Benefits of FrameSaver®

- 1 Field Proven:** Over a decade of “non-rot” performance
- 2 Lasts a Lifetime:** Will not rot or decay and the lifetime limited warranty is transferable.
- 3 Ready to be Finished:** Paints and finishes just like real wood.
- 4 No Wicking of Water or Swelling:** The patented composite bottom won't absorb water so rot never begins.
- 5 Extreme Durability and Strength:** The composite material is finger-jointed to wood for a perfect fit that maintains the structural integrity of the frame.
- 6 180 Days of Protection:** Comes standard with a 180-day primer which offers excellent coverage.

Protecting your home from the elements: Endura Door Sills

Door sills can make or break a door system. That's why Lensing Premium Entry Doors come with Endura sills, which deliver unmatched performance against air and water infiltration.

Z-Series Adjustable Sill

- ✔ Made up of all-composite substrates and synthetic caps and nosing.
- ✔ Resists rotting, warping, discoloration or deteriorating over time.
- ✔ Cap screw plugs protect the adjustment screws from unsightly damage and ensure consistently smooth adjustability over time.
- ✔ Available in two aluminum deck colors: mill and bronze

Z-Series Articulating Sill

- ✔ Offers the benefits of the adjustable sill plus automatic adjustments.
- ✔ Protects against leaks, drafts and insects, even when conditions aren't perfect or change over time.
- ✔ Spring-loaded cap never needs adjustment, automatically adjusting up or down to form a tight, lasting seal.
- ✔ Available in two aluminum deck colors: mill and bronze

ADAptive Sill

- ✔ This ADA-compliant door sill system doesn't leak.
- ✔ The dam meets ADA height requirements, creates a seal between the door and sill and provides ease of entry.
- ✔ The modular design works with interchangeable caps, enabling simple changes when flooring styles or application requirements change.
- ✔ Available in two aluminum deck colors: mill and bronze

Explore our three door slab materials.

All fiberglass and steel doors come primed and ready for finish.

Wood Grain Fiberglass

- ✔ Resembles the beautiful, natural look of real fir, mahogany or oak wood grains.
- ✔ High-definition panels with wider profiles provide more depth and authenticity than traditional fiberglass doors.
- ✔ Won't warp, dent or rust.
- ✔ Hinges are available in colonial bronze, satin nickel, dull brass or bright brass.

Smooth Fiberglass

- ✔ Light paint-brush-stroke texture can be painted any color without presanding or scuffing the surface.
- ✔ Features high-definition panels and wide profiles.
- ✔ Won't warp, dent or rust.
- ✔ Hinges are available in colonial bronze, satin nickel, dull brass or bright brass.

Primed Steel

- ✔ 24 gauge galvanized steel facings offer safety, security and durability.
- ✔ Factory primed for easy finishing.
- ✔ Epoxy-primed core prevents corrosion.
- ✔ Energy efficient core option is available.
- ✔ Includes composite adjustable mill finish sill (single door styles) or articulating mill finish sill (non-single door styles)
- ✔ Hinges are available in colonial bronze, satin nickel, dull brass or bright brass.

Blinds with Grilles Between Glass

These enclosed blinds combine the beauty of Grilles Between Glass with the practicality of Blinds Between Glass.

Vented Glass

Vented Glass allows you to enjoy warm breezes when open and keep out the cold and wet weather when closed. The frame maintains its appearance thanks to its UV-resistance, and the screen can be removed for easy cleaning.

Heavy duty protection for your opening: **FrontLine Aluminum Cladding and Moulding**

FrontLine Aluminum Cladding and Moulding is designed for durability. The heavy-duty extruded aluminum resists denting, chipping, cracking and peeling.

Other product features include:

Two available profiles

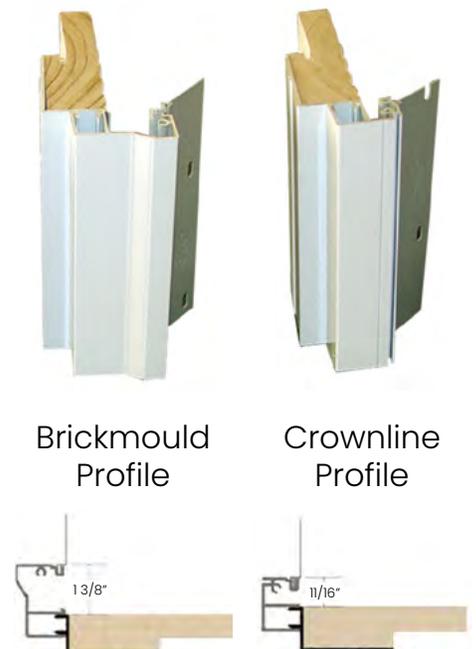

Pick from two profiles, Brickmould and Crownline. Brickmould has the same dimension and profile as wood 180 brickmould. The Crownline profile offers a medium width nosing profile.

Flexibility in application

The aluminum cladding and moulding are compatible with any entry door system and any door configuration. Also, they are storm door ready after installation.

No painting required

The cladding and moulding come in the following 12 standard colors, eliminating the need for painting. See the available colors below.

Details needed for installation: Opening Specifications and Door Handing

Use the following chart and images to help determine the width and height of your opening and the handing of your door.

Opening Specifications

Unit Size	Opening Type	Width	Height
6'8" High Inswing Door Units <i>Deduct 5/8" for outswing and ADA sill units</i>			
2'8"	Rough Opening	34"	82 1/4"
	Tip to Tip Brick Mould	36"	83"
3'0"	Rough Opening	38"	82 1/4"
	Tip to Tip Brick Mould	40"	83"
1'0" - 3'0"	Rough Opening	51 1/2"	82 1/4"
	Tip to Tip Brick Mould	53 1/2"	83"
1'2" - 3'0"	Rough Opening	53 1/2"	82 1/4"
	Tip to Tip Brick Mould	55 1/2"	83"
1'-0" - 3'0" - 1'0"	Rough Opening	65"	82 1/4"
	Tip to Tip Brick Mould	67"	83"
1'2" - 3'0" - 1'2"	Rough Opening	69"	82 1/4"
	Tip to Tip Brick Mould	71"	83"
5'0" Double	Rough Opening	62 1/2"	82 1/4"
	Tip to Tip Brick Mould	64 1/2"	83"
5'4" Double	Rough Opening	66 1/2"	82 1/4"
	Tip to Tip Brick Mould	68 1/2"	83"
6'0" Double	Rough Opening	74 1/2"	82 1/4"
	Tip to Tip Brick Mould	76 1/2"	83"
6'0" Patio	Rough Opening	75 1/2"	82 1/4"
	Tip to Tip Brick Mould	77 1/2"	83"
9'0" Patio	Rough Opening	113"	82 1/4"
	Tip to Tip Brick Mould	115"	83"
Retrofit Door Units			
Retrofit 6'0" Patio	Rough Opening	71 1/2"	80"
	Tip to Tip Brick Mould	73 1/2"	80 3/4"

For frame size, deduct 1/2" width and 1/2" height from rough opening size. Brickmould dimensions may be ± 1/8".

Door Handing

Door handing refers to the direction the door swings when opened. The following door units are viewed from the exterior.
